Be Original.

MX-B467P
Digital Printer

A Compact Package with a Full Suite of Business Functions

Space-Saving Design

With its small footprint* of 399 x 374 mm, this printer will easily find a niche in your SOHO or larger office. Simply place it on a desk, under a counter, or anywhere that space is limited.

* The numerical value is for the printer's base unit only.

Versatile Paper Handling

The printer has a standard paper capacity of 350 sheets, which can be expanded to 2,000 sheets. The main paper tray and multipurpose feeder handle a wide variety of paper, including cardstock, envelopes, and small media like A6-size paper.

Direct Printing

The printer can print TIFF, JPEG, PDF, or XPS files without using the printer driver. You can also print files directly from an FTP server or shared folder by selecting them via the printer's control panel.

Energy Efficient

This printer comes with a number of energy-management features that reduce power consumption both during active use and during sleep mode.

LCD Control Panel

Operating the printer is easy with the 2.4-inch colour LCD. This display lets you configure, interact with, and monitor vital system information.

Wireless LAN Connections*

An optional wireless LAN is available that conforms to the IEEE 802.11 a/ac/b/g/n standards. This lets you connect to the printer via network infrastructure or via Wi-Fi Direct® for mobile devices. Wi-Fi Direct allows peer-to-peer connection with compatible PCs and mobile devices. This comes in handy when you need quick access to a printer—for example, when a client is visiting your office. Because this wireless LAN is independent from an in-house network, you don't need to worry about security. What's more, it supports dual-band connectivity for both 2.4 GHz and 5 GHz wireless networks.

* Requires optional 27X6510.

AirPrint Compatible

The printer supports the AirPrint printing feature in Apple's iOS and macOS operating systems. AirPrint automatically detects MFPs and printers on the same network. It then lets you print directly from a mobile device without the need for a printer driver.

Device Management

Sharp Remote Device Manager* (SRDM) gives administrators centralised control of their networked MFPs and printers. This software covers system setup, security settings, troubleshooting, and more.

* Contact a Sharp customer representative for availability and other details.

Printer Driver with Easy Setup

The printer driver setup window features a simple design that includes larger buttons and drop-down menus, making it easier than ever to use printer functions.

SPECIFICATIONS

General

|	
Type	Desktop
Engine speed	A4*1: Max. 44 ppm
	8 1/2" x 11"*1: Max. 46 ppm
Control panel display	2.4-inch colour LCD
Paper size	Max. A4 (8 1/2" x 14"), min. A6 (3" x 5")
